Re: Public comment received for GCR 17-072: Telemedicine, effective October 1, 2017.

Comment:

I wanted to note that the language in the global commitment register proposed policy uses the term “physician” several times, which does not reflect that this policy applies to other health care providers (such as mental health providers) – so from our perspective it would be clearer if this language is revised.

Response:

The Department of Vermont Health Access (DVHA) appreciates the comment on GCR 17-072. DVHA has adjusted the language to clarify that the policy is applicable to providers.
